Sulky Breaking Plows, Weir and Champion Sulky Plows, THE BEST PLOWS MADE. It is a principle in mechanical science that a weight suspended between two supports can be carried easier and with less strain than in any other way. The plow is carried on a frame running between the wheels, and the vibration and weight being upon these, the bottom of the share is reflexed from pressure. The pores at the bottom of the furrow are left open, and a free circula-

tion of the air is permitted. The team is hitched directly to the plow, the pole being used merely to keep the frame horizontal. There is no down or side draft on the horses' necks. The hardest and driest ground, the sticklest and nucklest soil, can be plowed with like readiness; and the heaviest growth of weeds and trush, clover, standing cornstalks, and even broom-corn, can be plowed under completely out of sight. These Sulky Plows are well known in this community, and have an established reputation. Refer to Ellis Good, Evan Good, Judge Morrow, Eli Roush, Wesley Roush, Walter B. Littler, Jno. Carothers, R. R. West, Jos. Fenner, Jacob Pennington, Jno. West, W. C. Barry, Rees Brothers, Jacob Foraker, and many others. The BEST way is to try one your-TRAMS: \$1.00 A DAY. rebasyl self.
